

Optimal Carbon Price

Uniform vulnerability

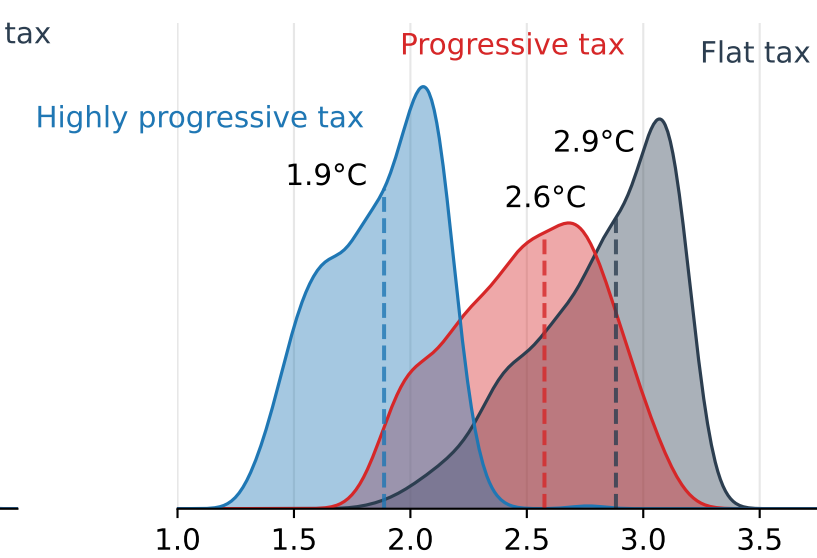

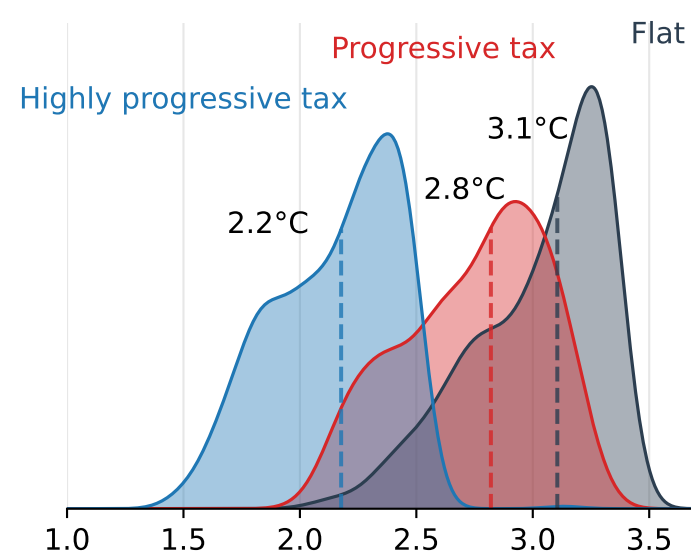

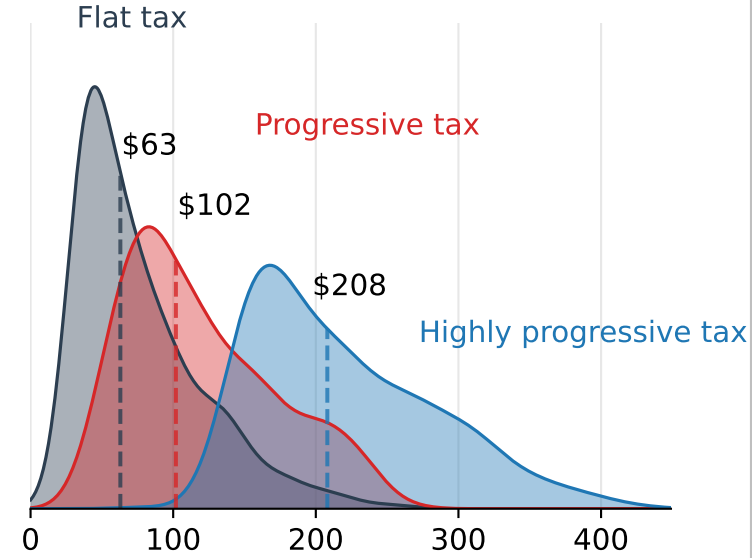

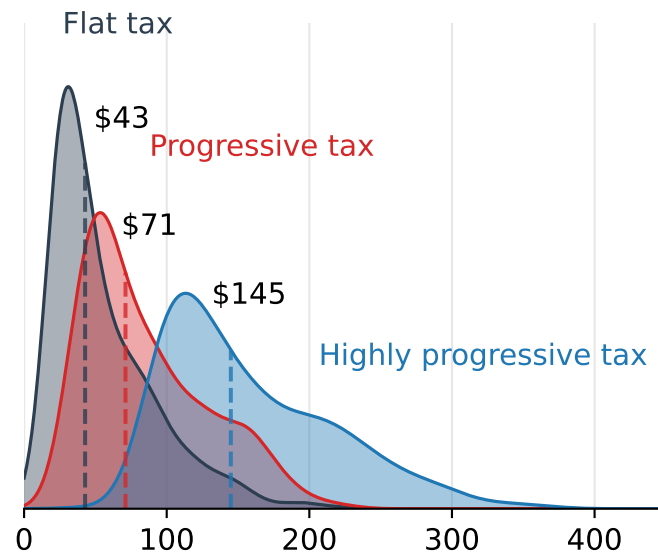

Increased low-income vulnerability

Temperature Change

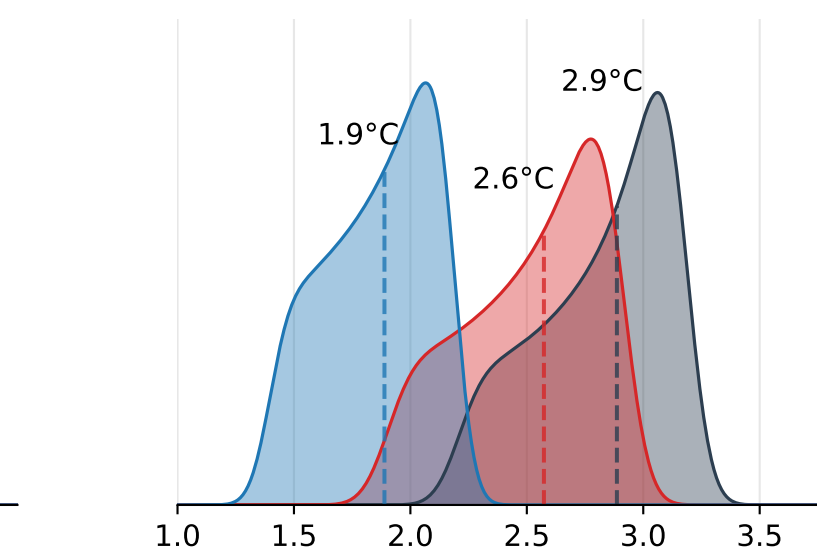

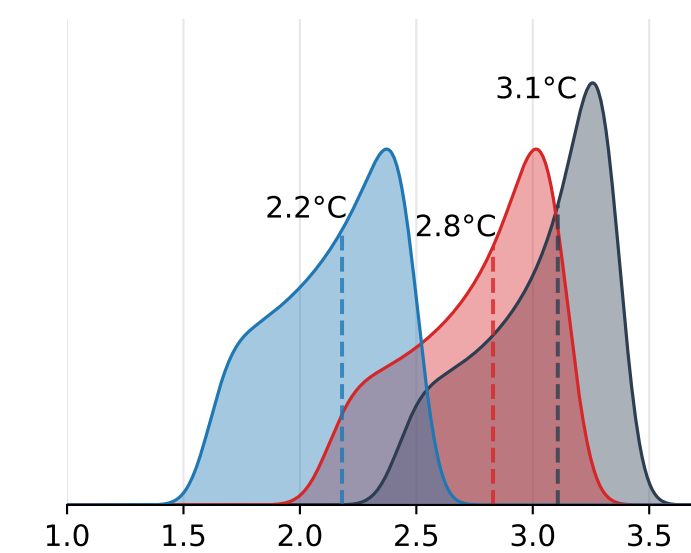

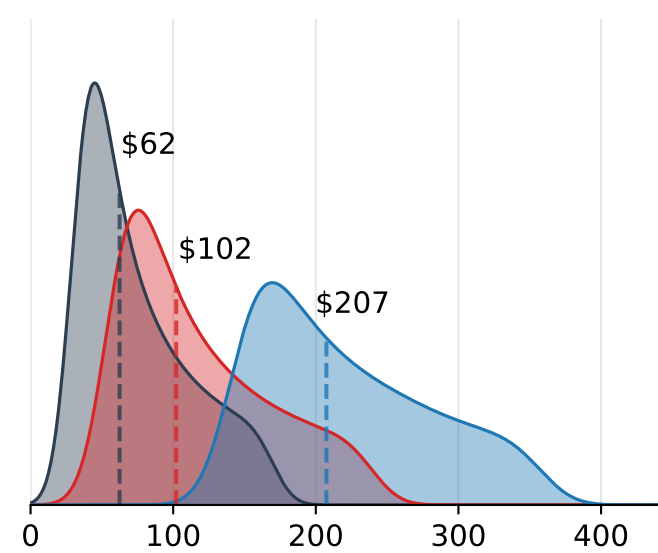

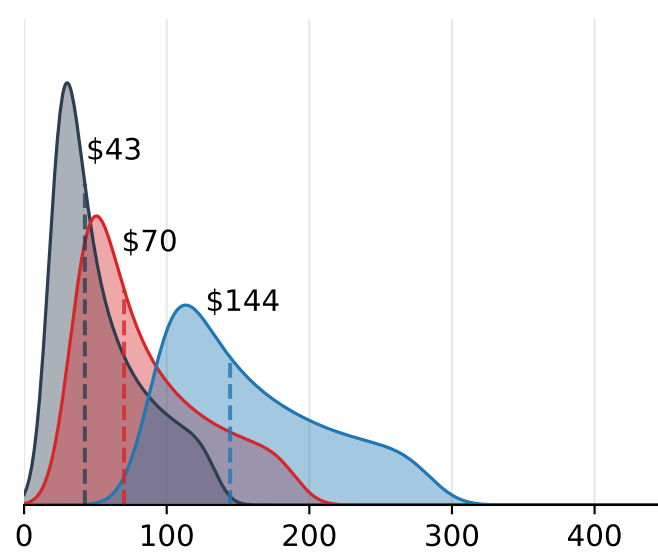

Uniform vulnerability

Increased low-income vulnerability

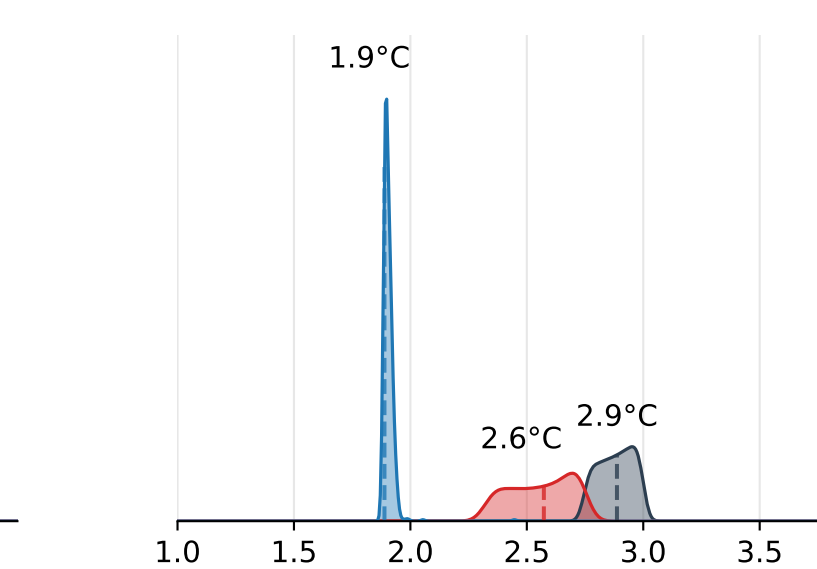

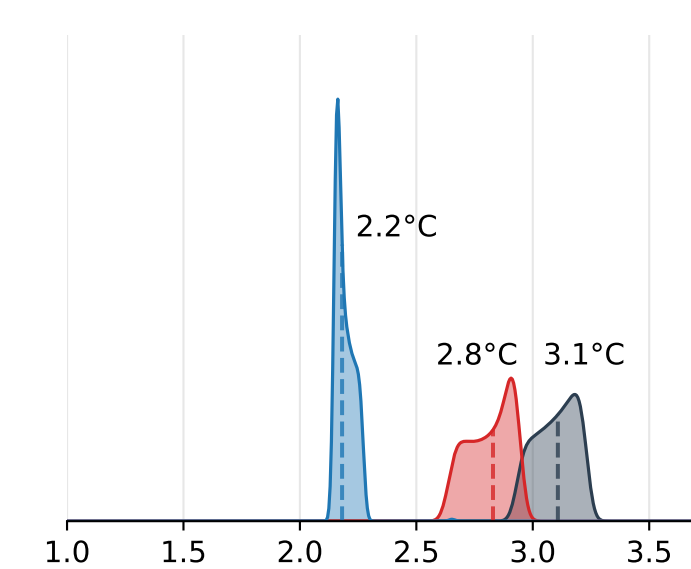

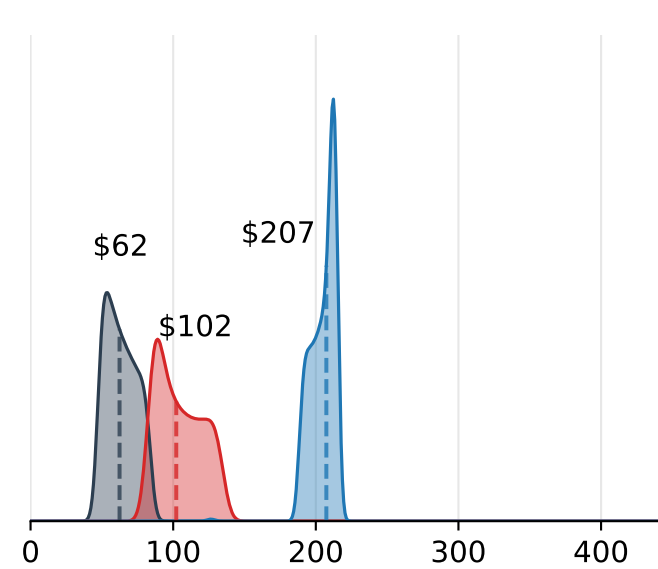

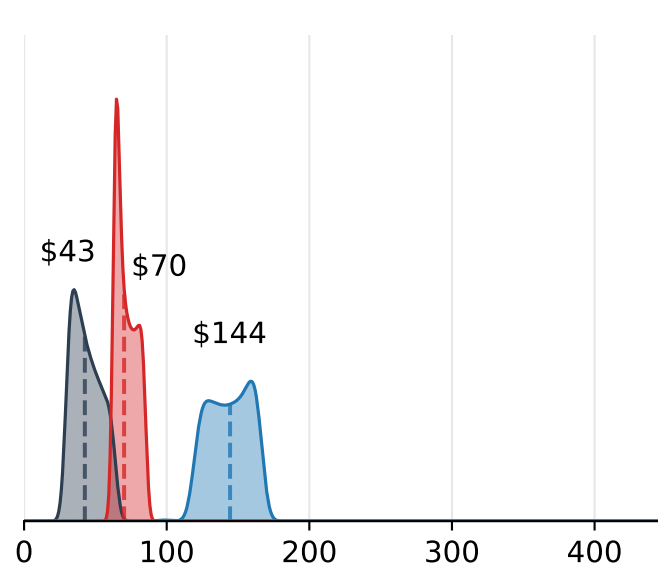

Joint ρ - η sensitivity

Pure time preference rate (ρ) sensitivity ($\eta = 1.5$)

Elasticity of marginal utility (η) sensitivity ($\rho = 0.025$)

Optimal Carbon Price in 2030 (\$/tCO₂)

Optimal Carbon Price in 2030 (\$/tCO₂)

Temperature Change in 2100 (°C)

Temperature Change in 2100 (°C)
